## **Eco Action Team**

### **Minutes for meeting on Thursday 1<sup>st</sup> July 2010**

Members present: all members were present at the meeting.

Reports from Eco Team members:

- **Energy:** Ollie and Abigail - reported that due to the building works they had been unable to access the meter, but Mrs Gambrell is looking into this. She also asked for the readings chart for 2009 / 2010.
- **Lights, computers:** Joseph and Ellis - people are doing well, but must remember to turn off lights even if leaving the classroom for a short time.
- **Fruit waste:** Millie and Cameron - Cameron sometimes forgets but Millie is ever vigilant and takes the fruit waste to the compost bin. Well done, Millie!
- **Bird seed:** Daniel and James - Abi and Millie make sure the birds are fed if Daniel and James forget. It was reported that the yellow feeder is now being used..... it had previously been the wrong way up, and that was why the birds hadn't been feeding from it!
- **Bird bath:** Victoria and Phoebe - the girls will clean out and replenish with fresh water after the meeting today.

Generation Green: The team discussed the excellent rewards that had arrived recently. The favourites included the solar helicopters, the strawberry planter and the Bug's Galore! Mrs Gambrell asked for the photos of eco initiatives to gain more leaves, to be sent to the website. *(Unfortunately, these weren't saved together, they were collected from a number of files so this would be a timely exercise. We will see how much time we have left.)*

We hope to receive rewards of fruit trees and an extra water butt for the school garden, if the children in school agree (to be surveyed next week).

## Fundraisers for WaterAid

Eco Market - 7<sup>th</sup> July: The team discussed final arrangements for this.

- Location hopefully under the gazebo on the field, at 3.30pm.
- Eco team members to help set up during the afternoon.
- Mrs Gambrell to come at 1.30pm and Dr Montague at 2.30pm
- Mrs Gill to do a fruit salad stall - accompanied by Phoebe and Victoria.
- Mrs Gambrell to run the "Swap Shop" of nearly new toys and games - aided by Cameron, Millie and Ollie.
- Home made cakes, jams and pickles stall - Daniel and James E with Mrs Stopps.
- Dr Montague to organise the Plant Stall, along with Abi, Alice and Caitlin.
- Nearly new clothes stall - Ellis and Joseph and an adult (tbc)
- Millie's Wildlife Photo Competition will also be judged at the Eco market.

Low Carbon Day - 24<sup>th</sup> June - The team reported on the success of the day. Through the activities covered, their understanding of how they can make a real difference by reducing their carbon footprint had increased, and children can outline how they can make realistic make changes in their usual routines to achieve this. A display of work will be mounted in school.

Any other business: James and Ollie informed the team that they are working on a water butt made from recycled materials, in the shape of a bird. We look forward to seeing the completed item - good idea, boys!

Mrs Stopps thanked the team for attending the meeting and for all their enthusiastic input. We look forward to a successful Eco Market next week with all of the team involved, and hopefully lots of children and families attending and supporting the event.

Date of next meeting: Thursday 22<sup>nd</sup> July

Reports from Eco Team members:

- **Energy:** Ollie and Abigail - reported that due to the building works they had been unable to access the meter, but Mrs Gambrell is looking into this. She also asked for the readings chart for 2009 / 2010.
- **Lights, computers:** Joseph and Ellis - people are doing well, but must remember to turn off lights even if leaving the classroom for a short time.
- **Fruit waste:** Millie and Cameron - Cameron sometimes forgets but Millie is ever vigilant and takes the fruit waste to the compost bin. Well done, Millie!
- **Bird seed:** Daniel and James - Abi and Millie make sure the birds are fed if Daniel and James forget. It was reported that the yellow feeder is now being used..... it had previously been the wrong way up, and that was why the birds hadn't been feeding from it!
- **Bird bath:** Victoria and Phoebe - the girls will clean out and replenish with fresh water after the meeting today.

Generation Green: The team discussed the excellent rewards that had arrived recently. The favourites included the solar helicopters, the strawberry planter and the Bug's Galore! Mrs Gambrell asked for the photos of eco initiatives to gain more leaves, to be sent to the website. *(Unfortunately, these weren't saved together, they were collected from a number of files so this would be a timely exercise. We will see how much time we have left.)*

We hope to receive rewards of fruit trees and an extra water butt for the school garden, if the children in school agree (to be surveyed next week).

## Fundraisers for WaterAid

Eco Market - 7<sup>th</sup> July: The team discussed final arrangements for this.

- Location hopefully under the gazebo on the field, at 3.30pm.
- Eco team members to help set up during the afternoon.
- Mrs Gambrell to come at 1.30pm and Dr Montague at 2.30pm
- Mrs Gill to do a fruit salad stall - accompanied by Phoebe and Victoria.
- Mrs Gambrell to run the "Swap Shop" of nearly new toys and games - aided by Cameron, Millie and Ollie.
- Home made cakes, jams and pickles stall - Daniel and James E with Mrs Stopps.
- Dr Montague to organise the Plant Stall, along with Abi, Alice and Caitlin.
- Nearly new clothes stall - Ellis and Joseph and an adult (tbc)
- Millie's Wildlife Photo Competition will also be judged at the Eco market.

Low Carbon Day - 24<sup>th</sup> June - The team reported on the success of the day. Through the activities covered, their understanding of how they can make a real difference by reducing their carbon footprint had increased, and children can outline how they can make realistic make changes in their usual routines to achieve this. A display of work will be mounted in school.

Any other business: James and Ollie informed the team that they are working on a water butt made from recycled materials, in the shape of a bird. We look forward to seeing the completed item - good idea, boys!

Mrs Stopps thanked the team for attending the meeting and for all their enthusiastic input. We look forward to a successful Eco Market next week with all of the team involved, and hopefully lots of children and families attending and supporting the event.

Date of next meeting: Thursday 22<sup>nd</sup> July

# **Titchmarsh Church of England Primary School**

## **Eco Action Team**

### **Minutes for meeting on Thursday 1<sup>st</sup> July 2010**

Members present: all members were present at the meeting.
